

ARE YOU CALLED? HERE ARE DRAFT NUMBERS TO DATE

CROW WING COUNTY 233 MEN FOR SERVICE

Robert Stickney, Brainerd, First Man Drawn, Has Tried Three Different Times to Enlist

Blindfolded Aids of Crowder in Washington Picked the Capsules Determining Liability to Service

The governor this morning informed Sheriff Claus A. Theorin that Crow Wing county's draft quota is 233 men.

Robert Stickney of Brainerd was the first man drawn in Crow Wing county, and he would have been a volunteer had the government accepted him months ago. Twice he tried to make the army and once the navy and each time he was rejected on account of bad eye sight. He is a clerk at the First National bank and in spite of his glasses has made a most creditable record as a rifle shot at the range of the Brainerd Rifle club, winning a sharp shooter's medal.

The lottery to fix the order of liability for military service of the 10,000,000 men registered for the war began at 9:45 on Friday morning.

It was unofficially estimated that approximately 1,000,000 men were represented in the first 1,000 numbers which had been drawn a little over an hour and a half after the drawing began.

Secretary Newton D. Baker was the first man to withdraw a capsule enclosed slip from a great glass bowl. Blindfolded, he drew No. 258. In every district in which as many as 258 men are registered No. 258 heads the list of those to be called.

Chairman G. E. Chamberlain of the senate military committee, blindfolded and plainly nervous, drew a capsule.

"The second number is 2522," shouted the announcer.

In the glass globe were 10,500 gelatin capsules, containing numbers from 1 to 10,500 inclusive.

Each of these numbers from 1 to 2,000 will be the number of a registrant in nearly every one of the 4,557 exemption districts in the country. Above 4,000 each number will call a man from each of a few districts.

Already President Wilson has formally ordered to the colors 667,000 of the men for whom lots are drawn and most of them will be in training by mid-September at 16 cantonments under construction throughout the country.

To provide that many physically fit and without any incumbrance calling for exemption, the war department will summon for examination the 1,374,000 who are found after the drawing to stand at the head of the muster roll.

The revised and corrected list of those first summoned in Crow Wing county follows:

258—Robert Stickney, 708 N. 8th, St., Brainerd.

458—Harry Allen Taylor, 610 Maple Street, Brainerd.

1436—Erwin Carr, Ironton.

854—Walter Anderson, Crosby.

1894—John August Johnson, Aitkin.

1878—Emil Ernestz Mertius, Ft. Ripley.

1095—Arthur Nyman, Crosby.

2022—Oscar Wm. Anderson, Ironton.

1455—Georgios Dryopoblos, Ironton.

783—John Prinos, 221 So. 6th St., Brainerd.

1813—Abraham Noah Peterson, Deerwood.

1858—Frederick Russell Peterson, Brainerd.

2389—Ernest R. Bickerton, Superior.

1752—Wm. Peterson, Manganese.

2494—Charles Wm. Wotring, Cuyuna.

1117—Arthur Olsson, Crosby.

1572—Alfred Myhre, Ironton.

1748—Mike Pavlagin, Manganese.

2195—John C. Thompson, R. 3, Brainerd.

837—John Aho, Crosby.

2036—Jno. Leon Cummings, Ironton.

337—John S. Flynn, 824 N. E. 7th Ave., Brainerd.

676—Wm. Dudley Everest, 807 S. 7th St., Brainerd.

275—O. M. Webber, 823 Main.

509—Chas. Robt. Erickson, 1716 Laurel.

1185—Lewis Strom, Crosby.

564—August Kant, 402 S. 13th, Brainerd.

2166—Willie Handeland, Brainerd.

945—James Fred Gray, Crosby.

1913—Wm. Hamdorf, Aitkin, Minn.

596—Wallace O. Olson, 1316 Norwood, Brainerd.

1267—Carl E. Bergstrom, Cuyuna.

2148—Amel Lundy, Merrifield.

536—Andrew Wm. Hill, 1524 Maple, Brainerd.

1495—Michael J. Gillespie, Ironton.

2453—Ben Anton Kruger, Pequot.

548—Chas. Jallmar Kulla, 1220 Maple St., Brainerd.

126—Arthur R. Benson, 915 Fir, Brainerd.

1679—Rade Zulovich, Ironton.

1237—John Uta, Crosby.

784—Henry Martin Ryan, 802 S. 10th, Brainerd.

1732—Dan Milluslon, Manganese.

755—Bernard Vincent McGivern, 518 S. 9th, Brainerd.

107—John Richard Spiering, Iron Exchange hotel, Brainerd.

1546—Edward L. Lefebvre, Ironton.

1563—Mike Matisch, Ironton.

2099—C. N. Pappaxauthes, River-ton.

1269—Floyd E. Warren, Deerwood.

616—Jacob Anton Setula, 1223 Quince, Brainerd.

373—Arthur Johnson, 718 N. E. 8th, Brainerd.

1676—Edwin A. Wick, Ironton.

1266—D. K. Balatswras, Cuyuna.

1891—August Beneke, Aitkin.

775—Wm. Clinton Pennington, Brainerd.

486—Martin Anderson, 1516 Pine, Brainerd.

692—Wm. S. Gonser, Brainerd.

600—James D. Peterson, 1407 E. Oak, Brainerd.

1986—Martin E. Hill, Garrison.

810—Ralph D. Stitzel, Windsor hotel, Brainerd.

1539—Charles Lee, Ironton.

1682—George Zervis, Ironton.

507—Elmer L. Dahl, 155 Pine, Brainerd.

309—James A. Crawford, 1007 12th St., Brainerd.

437—Osmond Simonson, 1419 Washington Ave., Brainerd.

1224—John Yamshek, Cuyuna.

604—Earl J. Pilgrim, 1950 Oak St., Brainerd.

43—Bert E. Glimmer, Brainerd.

2181—Ole J. Nesheim, Brainerd.

1763—Michael Siter, Manganese.

1548—Geo. A. Lee, Ironton.

1264—Oscar Anderson, Cuyuna.

1066—W. T. McKeown, Crosby.

924—Mat Endra, Crosby.

2455—W. T. Phillips, Pequot.

2501—Michael E. Strauner, Brainerd.

420—Alvin E. Phillips, Brainerd.

1014—J. C. Krueger, Crosby.

1178—Irvin Sewall, Crosby.

514—David Finne, Brainerd.

2374—Chester Dewing, Garrison.

433—J. Laughlin Smith, Brainerd.

1329—Douglas Archibald, Deerwood.

10—Andrew E. Berglund, Brainerd.

1045—Wm. Laakso, Crosby.

1031—Frank Long, Crosby.

1705—Alfos Cornikag, Manganese.

1331—F. A. B. Bollineau, Moe.

1685—Roy Bryant, Jenkins.

487—Axel A. Anderson.

1282—Victor Johnson Cuyuna.

1323—Emery Vervale, Cuyuna.

1847—John Somerville, Brainerd.

797—Eugene W. Schmit.

Adj't. Gen. Wood has been appointed United States disbursing officer for draft in Minnesota.

RUSSIAN TROOPS
ARE MUTINOUS

Disaffection Results in Army Losing Ground.

REGIMENT LEAVES TRENCHES

Troops Near Center of Line Voluntarily Retire, Forcing Other Units on the Line to Fall Back, Giving Teutons an Opportunity to Develop Their Offensive.

London, July 21.—Disaffection among Russian troops has resulted in an important gain of ground by the Germans and Austrians in the region of Zlochoff, east of Lemberg.

A Russian regiment near the center voluntarily left its trenches and retired, forcing the other units on the line to fall back. This, Petrograd says, gave the Germans opportunity for developing their movement.

Some Russian troops are reported to have refused to obey their commanders under the influence of the extremists who brought about the recent disorders in the Russian capital. Prince Leopold led the Austro-German advance in person and his troops, Berlin says, occupied three zones of defense and captured "a few thousand prisoners."

An attempt to assassinate Alexander Kerensky, the Russian minister of war, has failed. A shot fired at the minister in the town of Polotsk missed him.

Another effort by the Germans to regain the California and Casanetean plateaux, between Hurtelise and Craonne on the Aisne front, has been checked by the French. Elsewhere on the front in France there have been only raids and artillery duels.

Sure to See It There.

Jinks was always complaining of his wife's memory. "She can never remember anything," said he. "It's awful!"

"My wife was just as bad," said Brown, "till I found a capital recipe."

"What was it?" asked Jinks eagerly. "Why," said Brown, "whenever there's anything particular I want the missus to remember I write it on a slip of paper and gum it on the looking glass."

Jinks is now a contented man.—Pittsburgh Courier—Telegraph.

Lloyd George
Makes Answer
to Michaelis

(By United Press)

London, July 21—Lloyd George in a speech answering Chancellor Michaelis said the German chancellor held out no hope for Belgium, continuing that she was not mentioned by him, meaning Michaelis. It is the determination of the allies that Belgium must be restored free and independent, and her people not placed under a protectorate. The premier declares that if the U-boat menace is not eliminated Europe will again be plunged into a welter of blood some time after the present war is concluded.

Sham independence for Belgium, sham democracy for Germany and sham peace for Europe is the bitter epitome of Chancellor Michaelis' speech according to Lloyd George who declares that the allies increasing protection diminishes the losses from submarine and that the food supply for this year and next are assured, already. Our program of cultivation makes the supply of 1919 sufficient even if losses increase.

BRITISH USE HEAVY GUNS

Fleet Conducts Severe Bombardment of Zebrugga.

London, June 8.—A dispatch from Flushing says, according to a frontier correspondent, a bombardment of Zebrugga was the most formidable since the war began. It was carried out by the British fleet with heavy guns and lasted an hour and forty minutes.

"The damage must have been severe," the dispatch says, "for the explosions were heard continuously. Several fires were seen."

"German soldiers are cleaning up the debris and removing the dead and wounded."

TAKE SALTS TO
FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is fine for Kidneys.

Meat works uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or a headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

THE NEW MAID.

It Takes Her About Two Weeks To Get Broken In.

JUST BE PATIENT WITH HER.

It is Unwise to Stir Up Her Nervous Reflexes by Trying to Teach Her All Your Fads at Once—Give Her Time to Grasp Your Routine.

Many a mistress becomes hopelessly discouraged by the seeming inefficiency of the new maid in the first two weeks, when a longer trial would have shown marked improvement had she only given the girl a chance to prove it. The first fortnight is the hardest time for the servant in a new home, and it usually takes her all of that time to become accustomed to the way in which the head of the house likes to have her work done. If the mistress encourages her and does not lose patience in the beginning the girl will usually show signs of real efficiency in the last half of the first month.

Unfortunately, however, most women are apt to look on their maids' first efforts in the most critical way. The maid can always feel this supercritical atmosphere, and her work is not improved any by the nervousness created through fear of dismissal.

The new maid, as a rule, falls into one of two classes—the rather shy girl who needs to be told just what to do and the confident, rather aggressive girl who takes hold immediately and starts work without any directions. The average mistress usually prefers the latter, but the former often makes the better maid if her services are retained long enough.

The average mistress does not want to have to direct a maid all the time, and small blame to her. But often the shy girl will settle down and become an excellent maid after she has grown accustomed to the way in which her employer likes to have things done. She would prefer being directed at first until she knows just how the housewife wants the work done, but once she gets the swing of things she goes ahead.

It is far wiser to spend two weeks in breaking in the new maid carefully

and patiently, housewives, if by so doing you obtain a thoroughly satisfactory girl. If after three weeks or a month you see she does not take hold at all it is time enough to let her go then.

If you find the new girl wants to be told just what to do next do not be impatient, but show her just what you want done and how. Make her out a schedule of the work to be done each day in the week—Monday, washing; Tuesday, ironing; Wednesday, sweeping; Thursday, cleaning silver; Friday, mending; Saturday, baking, or any other arrangement you prefer. Tell her the duties which have to be done daily, like bed making and brushing up.

And she will be satisfactory, for you will have all the work done the way you want it. But don't lose patience in the first fortnight.

RUSSIAN PREMIER RESIGNS

Minister of War Kerensky Accepts the Portfolio.

Petrograd, July 21.—The Bourse Gazette announced that Premier Lvoff has resigned and that Alexander F. Kerensky has been appointed premier, but will temporarily retain his portfolio of minister of war and marine.

M. Tsereteli has been appointed to the post of minister of the interior, which was held by M. Lvoff, but will retain his portfolio of minister of posts and telegraphs.

M. Nekrasoff has been named provisionally as minister of justice in place of Mr. Perevezzeff, who resigned Thursday.

M. Kerensky has returned to Petrograd after a visit to the war front.

FRENCH RIDICULE SPEECH

Papers Declare New German Chancellor is Bluffing.

Paris, July, 21.—Most newspapers reserve considered judgment of Chancellor Michaelis' maiden speech until the full text arrives, but all print prominently the summary and use verbatim such portions of the report as were received up to the time of going to press.

The Matin says the program of Prussian militarism set forth by the chancellor may be summarized in two words: "Hold out and bluff," the most striking example of bluff being the disdain wherewith he affects to treat American intervention.

WOMAN'S REALM

New Styles in Cooks Latest Effect Maids

By MARGARET MASON (Written for the United Press)

Oh Bridget is making munitions And Hulda the mountains doth roam

While Liza makes tracks for the sea shore We're left in a servantless home.

This is the season of the year when newest styles in cooks and the latest effects in second maids and waitresses is agitating the female mind much more than the dander ori in bonnets and blouses.

When Tilly begins to burn the griddle cakes and mope around with a misunderstood expression in her lambent orbs then you may as well hit the trail to the employment agency at once. For Tilly has begun to feel the yearn for the great outdoors. She hears the sad sea waves calling and the whisper of the pines.

For ten years I have spent my sizzling summers in my city flat. No one ever said to me "Wilt thou fly with me to some cool spot?" so I just had to stay put and do all my willing right in my happy little home. Not so Maggie, Minna or who ever happened to be breaking my china at the moment. As soon as the first signs of spring were noticed they gave their notice. They packed their trunks and fled them to some mountain, field or seaside resort while I became queen of the home and serf of the stove and the sink as a last resort. Can you beat it? No, but they always did and still do.

Now that munition factories are added as an equal lure to the siren call of the summer resort, times are doubly hard for our erstwhile happy homes. Treasures of our domestic menage are now wrested from without the kitchen range of our affections to fill shrapnel shells instead of pantry shells. Blatant making has given way to bullet making and the hands that once pushed the baby carriage are now busy doing the same for the gun carriage and making bombs to scream through the air while our heirs scream nurseless at home.

To make the worst of it servant styles left to choose from never offered less diversity before. There are but few imported models being used this season owing to the difficulty of transportation. Some of our most serviceable little German effects can no longer be obtained and there is only a scant showing of Swedish, County Clare and Hungarian model maids. Naturally a domestic domestic isn't in it with the imported article but even a "made in America" maid is going at a premium these days.

Really the best little all around model for general housework is a southern product. It is built on generous lines (Mason and Dixon mostly) and is worn very dark this season. One of this model lot known as "The Virginia" is particularly smart, wears well and is guaranteed fast black.

Have you a little Finn in your home? If you contemplate getting one pick it young. A Finn is always much better at the flapper stage. Finns are especially handy at handling around the hash and besides they sort of add an extra finish.

Swedish models are scarce, aye there's the rub, but if you can succeed in snaring one you will find them great for massaging the dishes and rubbing down the furniture and up the silver.

We have gone in so extravagantly for everything Chinese this year that it seems only meet we should follow up Oriental lines to the chief cook and bottle washer. A Chinese servant is a chink through which one bright ray of light is let in on our dark servant problem. A Japanese is sure to please. With one of these you'll live at ease. A Japanese man and his wife are a pair to draw to and two of a right kind that are hard to beat.

But it weally won't do to be too fussy about your maid servant or your man servant this season. You musn't mind if their complexion does not go with your wall paper or their style conflicts with your period furniture.

You'll be lucky if you have any waiter except a dumb waiter or any cook but a fireless cooker.

Ruth Chatterton may think she is the only one who is starring in "Come Out of the Kitchen" this season—but there are others.

Finger Prints.

Finger prints for identification were used by the Chinese as long ago as the seventh century.

Renico-Tesson

Miss Laura May Renico was united in marriage to Harvey Newland Tesson Tuesday evening at 8 o'clock at the apartments of the bride's mother in the Miracle block, Rev. R. E. Cody officiating.

Mr. Tesson recently came from Nebraska but has secured a position at the Northern Pacific shops and will make a home for his bride in Brainerd.

The Dispatch joins their friends in extending congratulations.

Patriotic Party

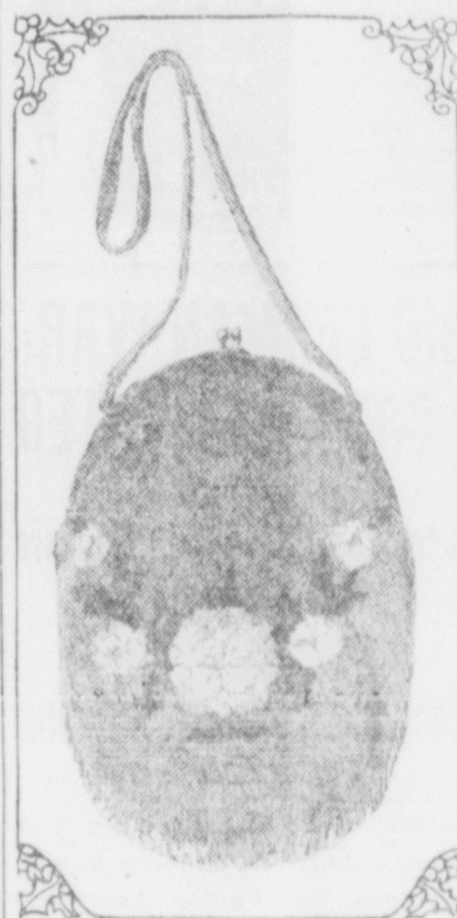

Mrs. Tom Sanborn entertained a number of Brainerd ladies at a "patriotic 500 party" at her cottage at Nisswa Thursday afternoon. The spacious veranda was artistically decorated by the judge with ferns, wild flowers and birch bark flower receivers. Numerous American flags were suspended from the ceiling with here and there a Japanese lantern.

A hearty luncheon was served after which all were treated to a launch ride by Stewart Mills and his mother, Mrs. C. H. Mills.

A NATTY BAG.

Beads, Never So Profuse, Work All Sorts of Beauty.

Never so beautiful were bead bags as they come now in marvelous shades of cerulean, azure, pomegranate and emerald. The base of this one is apple

THE BRIDE'S FAVORITE.

green wreathed with La France roses in exquisite shading and dark green foliage. These make fascinating wedding gifts.

In Fireless Cooker.

Many people who have fireless cookers have perhaps often thought of baking potatoes in them. This can easily be done, and they are just as satisfactory as when baked in the oven. Put the largest heater over the gas flame and arrange the potatoes close together on this; let them stay half an hour, turning occasionally; then put in the cooker and cover up, and in another half hour they will be done.

A Test For Mushrooms.

To test the healthfulness of mushrooms stir while cooking with a silver spoon. If there is any foreign substance in them the silver will turn.

Took the Gift Without Thanks.

The name of W. H. Alexander is practically an unknown one in England, yet he it was who gave to the country the enormous sum of £50,000 for the purpose of building the National Portrait gallery. The only recognition he asked for this munificent gift was that he might have an autograph letter from Queen Victoria giving expression to the nation's gratitude. It is more than remarkable that up to the time of his death this modest request had not been granted, and no recognition was made of his handsome gift. It is surmised that this simple wish was never laid before the queen.—Pearson's.

True Economy.

There are great joys in practicing true economy in the right spirit. True economy, you see, is not abstinence from necessary things—not at all. The joys of true economy are for those who make the most of what they have; who, finding what may be theirs, proceed to the extraction of the greatest benefit from what is within reach.

Too Much Flirting.

First Coed—Why, Doris, how tired your eyes look! Tired One—Yes, my dear; I rolled them too much this evening.—Syracuse Orange Peel.

No Time For Her.

Physician—Your case is such, madam, that time alone will effect a cure. Mrs. Randall—Then it is hopeless, for I never have even five minutes.—Life.

ELIZABETH WATSON.

Assistant to Woman Congressman in U. S. Printing Reform.

Photo by American Press Association.

Miss Jeannette Rankin, the "Congresswoman from Montana," has been having a woman investigator doing detective work for her. She will use the evidence in her coming demand for a congress investigation of the bureau of engraving and printing. The woman investigator's name is Miss Elizabeth Watson, who has done investigating for the New York Commission on Prison Reform, the New York State Factory Commission and the National Child Labor Committee.

SPY NEST OUSTED FROM SWEDISH CITY

Stockholm, July 21.—Three Germans, one of them a captain of marines, have just been expelled from Sweden for espionage, which unquestionably resulted in the sinking of many ships.

Their seat of operations was Gothenburg and their reports appear to have been made through Copenhagen. One posed as a merchant, the second as a teacher of languages and the third, who was the leader, as a wholesale merchant.

Walsoe, the last named, carried on his operations for more than two years before his activities were ended by a traveler who recognized him as a German officer. Walsoe got wind of what was coming and got away to Copenhagen before the police visited him.

There is reason to believe that the "spy central" in Gothenburg has been broken up by the removal of these three men.

Rows Across Baltic Sea.

Stockholm, July 21.—Russian prisoners of war occasionally find their way to Sweden from Germany. The last group contained eleven men, who reached Sweden via Bernholm. One of them had rowed across the Baltic from near Sassnitz.

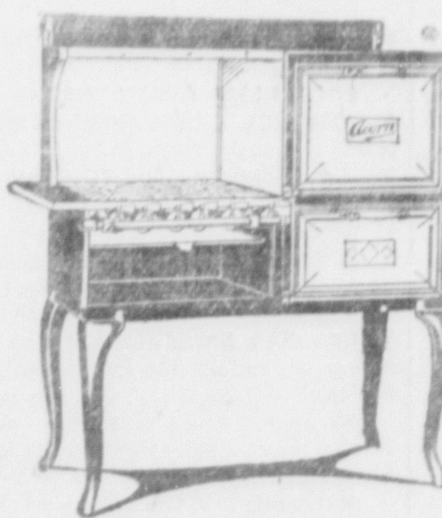

New Ambassador to Japan.

Washington, July 21.—Roland S. Morris of Philadelphia has been nominated by President Wilson as ambassador to Japan.

Putting the Cat Out at Night.

The practice of turning the cat out of doors at night is as cruel as it is unnecessary. No animal is fonder of warmth and comfort, and the pet's happiness certainly is not increased by a night spent outside in cold and dampness.

If as much energy was exhausted in keeping the cat indoors as too often is expended in putting her out, how great would be the boon to human nerves and unfortunate wild things! All felines are normally nocturnal, and it is at night, if ever, that a curb on their activities is needed.—Lee S. Crandall, in "Pet."

"He Profits Most Who Serves Best"

The Many Good Uses of a Good

TALCUM POWDER

Talcum powder has more uses than any other toilet article. It is so good for tan, sunburn, after bathing, before bathing. As a face powder, a dusting powder, for babies, as a perspiration powder, and for men after shaving. We have one of the finest little talcum powders that this world ever produced. Just a soft, clear, clean white talcum highly perfumed with a delightful violet odor. Better try a box.

SATURDAY, JULY 21, 1917

Your Flag and my Flag!
And, oh, how much it holds
Of your Land and my Land
Safe within its folds,
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-kissed,
The Red, the Blue and White!
The one Flag—the Great Flag—
The Flag for me and you—
Glorified the whole world wide—
The Red, the White, the Blue!

Clean Spectacles.
Oculists will agree that many persons who wear spectacles, although the lenses may be perfectly adapted to the needs of the eye, suffer much inconvenience and possibly ultimate damage simply through not keeping their glasses clean. Students and writers, lawyers and clergymen, business men and school children who use glasses rarely keep them clean, and from their cloudy and grimy state serious injury results to the eyesight. The glasses should be frequently cleaned with alcohol, which is preferable to water, and either tissue paper or chamois leather is better than the usual handkerchief.

An Experiment in Optics.
An interesting experiment in optics may be performed in the following manner: Take a bit of hard graphite, such as a lead pencil, and hold it in the tip of a candle flame until it is completely covered with soot. It will then appear black in the air, but lay it in some water, completely covering the lead part, and it will appear like silver. The explanation of this phenomenon is that the water is unable to touch the object, due to surface tension and lack of cohesion. The water then acts like an unsilvered sheet of darkened glass, reflecting the light.—Thomas W. Benson in Popular Science Monthly.

They Get Busy.
"I suppose a great many ask for information who have no idea of taking a train?"
"Yes," said the weary official. "When some people spy a free bureau of information there's a strong temptation to stock up."—Kansas City Journal.

Literature.
"Dasher your favorite author? Why, he doesn't average one short story a year."
"That's why he's my favorite author."—Puck.

It is better to say, "This one thing I do" than to say, "These forty things I dabble in."

Some Improvement.
"Has your father had anything good to say of me since I have been coming to see you?"
"Oh, yes," replied Miss Peacher. "Only last night he said, 'Daughter, that new bean of yours gives me much better cigars than the tightwad who used to hang around here.'—Birmingham Age-Herald.

Beware of Ointments for Catarrh that Contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Take Hall's Family Pills for constipation.—Adv't. Apr

NUMBERS DRAWN FOR NEW ARMY

Selective Draft System Is Put Into Effect.

ONLY ONE BLANK APPEARS

Ten Thousand Five Hundred Numbers Are Drawn One at a Time—Men Who Will Compose New First Army Will Be Chosen From First Two Thousand.

Washington, July 21.—The great lottery to determine the order of liability for the new national army has taken place.

As fast as the names were called they were written on a blackboard and when this was filled it was carried away and photographed as a record. This allowed brief respite until the board was cleaned and replaced, when the task went on as before.

When the 10,004th capsule was drawn it was found to be blank. The fact was noted on tally sheets before a new 10,004 was drawn.

Until they actually receive from their respective boards the order to present themselves for physical examination the men registered whose numbers were drawn to determine their order of liability for military service still can enlist voluntarily in the regular army, national guard, navy or marine corps.

General Crowder made this plain. In other words by enlisting any registrant will have power still to select the particular branch of the service he prefers. This power will pass from him, however, the minute he receives by mail the official summons from his board to present himself.

Will Be Summoned Soon.

It probably will not be for a week at least that any summons to appear for examination are issued. It will be several weeks before many are reached. During that period the opportunity for voluntary enlistment in any branch of the service is still theirs.

It was necessary to draw 10,500 numbers, one at a time.

The lottery was held in the public hearing room of the senate office building with war department officials in charge of the actual drawing and members of the senate and house military committees as witnesses.

As a result of the drawing every registered man is given a definite place in the liability for service list.

Already 687,000 have been ordered to the colors to fill to war strength the regular army and national guard and to constitute the first increment of the national army.

To obtain that total 1,374,000 men will be called for examination within a few weeks, officials estimating that two registrants must be called for every soldier accepted.

These 1,374,000 will be taken from the head of the liability list, every local district furnishing a fixed quota.

The numbers given below are from the first 2,000 drawn and are expected to practically complete the first army. The registrants were drawn in the following order:

Numbers Given as Drawn.

258, 2622, 851, 458, 854, 1894, 1878, 1095, 783, 1813, 2787, 1858, 2389, 1117, 1572, 2762, 2195, 837, 2036, 337, 676, 275, 509, 1185, 564, 2166, 945, 1913, 596, 2620, 2936, 1267, 2148, 536, 1495, 2453, 548, 126, 1679, 1237, 784, 1732, 755, 107, 3786, 1546, 1563, 1369, 2691, 616, 373, 1676, 1266, 1891, 775, 486, 692, 600, 1986, 810, 1539, 2549, 1682, 597, 309, 437, 2967, 1324, 604, 43, 2181, 1763, 1548, 1264, 1066, 924, 2455, 2501, 420, 1014, 1178, 514, 433, 1329, 2945, 10, 2725, 2738, 2756, 1045, 1031, 1705, 1331, 1685, 487, 1282, 1323, 1847, 797, 140, 2599, 1326, 1922, 2952, 1723, 2808, 1779, 1236, 2247, 2011, 432, 2719, 2962, 18, 652, 927, 2868, 1484, 739, 1751, 601, 1322, 1146, 1103, 2319, 1395, 2479, 606, 182, 1771, 513, 46, 1020, 1651, 1099, 1955, 2441, 2749, 2628, 1636, 223, 2066, 1441, 117, 2330, 2675, 390, 2233, 2990, 75, 1818, 772, 1456, 2939, 721, 1419, 2390, 786, 1549, 1476, 280, 2322, 1292, 2730, 972, 983, 757, 966, 868, 2230, 2456, 332, 2090, 379, 1560, 542, 2107, 194, 874, 552, 2665, 2295, 1300, 2124, 1673, 1887, 2707, 298, 675, 2132, 1769, 1294, 1148, 1647, 2558, 1354, 1906, 2017, 2397, 343, 2908, 2414, 1612, 2100, 982, 2467, 726, 15, 905, 933, 2331, 1531, 2861, 2209, 1288, 452, 355, 1834, 530, 809, 2579, 1114, 2826, 2670, 2473, 1470, 645, 2135, 218, 620, 1334, 550, 1611, 574, 2778, 31, 1432, 1727, 2047, 2817, 2740, 981, 1848, 2662, 1570, 2884, 2885, 1817, 2577, 770, 882, 2078, 677, 2119, 2360, 2269, 2592, 2758, 1868, 1569, 1211, 525, 1417, 1574, 2034, 2434, 760, 183, 56, 2695, 1276, 1791, 1956, 792, 2128, 5, 350, 1580, 54, 2698, 2365, 2615, 870, 1714, 549, 1132, 440, 1485, 1674, 1054, 2326, 1275, 2316, 2225, 711, 1022, 841, 2795, 2454, 1032, 623, 269, 685, 1141, 1314, 1016, 1688, 335, 1430, 2905, 493, 2448, 2108, 1358, 2503, 1305, 341, 2517, 2276, 2532, 1007, 1764, 391, 1366, 353, 970, 637, 1675, 2870, 2024, 280, 1657, 2555, 1217, 571, 1873, 488, 1543, 2102, 2555, 704, 72, 1896, 1709, 356, 112, 1067, 2590, 2082, 2116, 128, 2012, 679, 905, 11, 2989, 900, 1981, 2303, 363, 2421, 887, 1142, 2495, 2439, 1765, 6, 2796, 2167, 327, 2765, 664, 93, 1722, 957, 1557, 2833, 1744, 1112, 2462, 2516, 345, 2184, 1355, 103, 2752, 1585, 1912, 1221, 1102, 1625, 556, 1565, 2109, 154, 1281, 51, 717, 1057, 1256, 1073, 30, 199, 388, 1423, 2458, 1716

Arizona Girl Who Followed Husband to France

Mrs. Hazel Carter of Douglas, Ariz., is on her way home after a desperate attempt to get into the trenches in France with her husband while she was disguised as an American soldier. She smuggled her way on to the train that took him to New York and then on to the transport which took him to France. But they caught her before the voyage finished and she was not permitted to land. She was sent back to Hoboken, N. J., and there she posed in her army uniform in front of the poster which demands men for the army.

BIG GERMAN WAR CREDIT IS VOTED

Reichstag Votes on Measure Without Debate.

SOCIALISTS OPPOSE THE BILL

Dr. Michaelis Says People Long for a New and Splendid Germany, Morally Purified, God Fearing, Loyal and Peaceful, to Attain Which They Will Continue to Fight.

Copenhagen, July 21.—The German reichstag has voted without discussion the third reading of the bill providing for a war credit of 15,000,000,000 marks (about \$3,450,000,000). The minority against the measure was made up of Independent Socialists.

Dr. Michaelis, the new chancellor, in his first address to the reichstag, made no new important declarations concerning the war.

"What we long to attain," the chancellor went on, "is a new and splendid Germany, not a Germany which wishes, as our enemies believe, to terrorize the world with her armed might, nor the morally purified, God fearing, loyal, peaceful and mighty Germany which we all love. For this Germany we shall fight and endure. For this Germany we and our brothers out there will bleed and die. For this Germany we shall fight our way through, despite all force."

Dr. Michaelis' address was given a courteous and appreciative hearing except for Socialist interjections on occasions. The Conservatives sat silent while the chancellor was making his reference to peace, but began interrupting and challenging statements of opposition members when the latter took the floor.

The delay of the chancellor in instituting cabinet changes has caused some unfavorable sentiment in the reichstag.

His course is interpreted as a move to prevent any parliamentary criticism of or controversy over the new appointments by deferring announcement of them until the reichstag is no longer in session.

AS TABULATED IN LONDON

German Casualty Lists Show 1,105,760 Dead.

London, July 21.—German casualty lists reported in the German official lists in June, but not as having occurred in June, are given out by the war office here as follows: Killed and died of wounds, 28,819; died of sickness, 3,215; prisoners and missing, 38,696.

The totals of the German official lists since the war began follow: Killed or died of wounds, 1,032,890; died of sickness, 72,960; prisoners and missing, 191,966; wounded, 2,825,581.

The naval and colonial casualties are not included.

Do not iron a veil that has become wrinkled. Roll it smoothly on cardboard and steam over a kettle.

TALKING SENATORS BRANDED SLACKERS

Washington, July 21.—"There are two things going on now that are attracting the attention of the world. They are talk in the senate and war in Europe." Senator John Sharpe Williams said in the senate in arraignment senators who delayed action on the aviation and food control bills.

"There is one word," he said, "which I think is in the minds of all Americans, which arouses more contempt than any other word in the world, and that is 'slacker.'"

"The slackers are not only composed of those who are resorting to lying and marrying, and various other devices, in order to avoid service, but it likewise applies to legislators who are taking up time needlessly and uselessly for the purpose of exploiting themselves or some local interest."

"Cannot the senate take a little bit of encouragement to do something, rather than talk quite so much?"

WANTS TRAINED MECHANICS

Government to Urge Vocational Training in Schools.

Washington, July 21.—National training for skilled mechanics and high grade helpers is to be undertaken as a step of war preparations.

An appeal has been sent to all colleges and schools to prepare to meet the demand that will come for technical experts in the metal and other trades.

President Wilson and other government officials are behind the effort to enlist vocational schools and classes everywhere in the establishment of this second line of industrial defense.

GENERAL WOOD HAS NOT YET RESIGNED

St. Paul, July 21.—Going to the capitol for an hour in open defiance of his physician's orders Adjutant General Fred B. Wood gave personal attention to draft details, but refused to discuss the demand of the state military board for his resignation, which reached him after the board asked the public safety commission to advise his removal to Governor Burnquist.

"I can't answer questions on that subject," General Wood said, when asked if he planned to resign. A further inquiry as to whether he had received the military board's demand and been informed of its resolution asking his removal, he replied:

"I have absolutely nothing to say."

Governor Burnquist said that General Wood had not resigned and indicated that he would consult with him before any definite decision was reached.

Aged Woman Is Killed.

Medina, N. D., July 21.—Mrs. Susan Kissinger, seventy-one years old, was killed while her three grandchildren, with her, escaped uninjured when a wagon in which they were riding overturned in a ditch.

Machine Protection is Very Important This Year

Machine manufacturers state that enough steel for about 75 per cent of the NORMAL machine demand is all they can figure on this year.

The demand for machines, due to big prospective crops, is almost sure to be away above normal with a possibility of the machine companies being unable to deliver.

Save Your Present Machines

by building a shed for them where you can keep them in good condition and protect them from rust and rot.

The shed will surely cost you less than new machines or extensive repairs, and as new machines are not available this season a shed may save part of your crops. See us now for the material for such a shed while the MATERIAL can be had.

Winnor-Adams Lumber Co.

Down Town Office 519 Iron Exchange Building, Laurel Street.

PETER K. ROACH IS DEAD

Pioneer Contractor Built First Railways Into Minneapolis.

Minneapolis, July 21.—Peter Kepner Roach, pioneer railroad builder of Minnesota and builder of the first railroad in Cuba in 1864, is dead here at the age of eighty-three years.

Mr. Roach was for a number of years a prominent figure in the railroad contracting and lumber business of the Northwest and as an associate of Gilbert Graham he constructed the first railroads opened to Minneapolis from Chicago and Duluth.

Mr. Roach came to Minneapolis in June, 1858, thirty days after the territory had been incorporated as a state. He settled first in Richfield and later moved to Minneapolis.

During the Civil war Mr. Roach joined the Fort Ridgely expedition to suppress Indian uprisings in the southern part of the state.

Branding Criminals.

Until the end of the eighteenth century the prisoners' dock in most important English law courts was furnished with an iron upright and collar fixed in front of the person who was being tried. If a conviction followed and the judge elected to include a decree of branding in the sentence that portion of it was carried out upon the spot.

The criminal's hand was put through the collar, which was effectually screwed around the wrist and, the necessary branding iron having been previously heated in the courthouse fire, was forthwith marked upon the thumb with the letters which the judge directed to be burned upon it.

WORK WEARS ON THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for People Who Work in Brainerd

Many Brainerd people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills are for weak kidneys and bad backs. Their effective work in Brainerd is convincing proof of merit.

J. C. Beck, carpenter, 809 Tenth St. So., Brainerd, says: "I couldn't stoop without pain and was hardly able to do any work at all. I got Doan's Kidney Pills at H. P. Dunn's Drug store and they soon fixed me up all right. I was able to again work as usual and I haven't been obliged to take any kidney medicine since."

Price—60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Beck had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv't.

It is no wonder that stones which fall from the regions of space are fired by the impact when they strike our atmosphere. Astronomers estimate that they fall with a velocity of at least 60,000 yards per second.

DOUGHERTY AT FORT SNELLING

Lawrence Dougherty Writes His Parents, Mr. and Mrs. Chas. Dougherty of N. E. Brainerd

TO FRANCE IN THREE MONTHS

Young Man Who Enlisted in Opera House Meeting is now at Fort Snelling, Minn.

Lawrence Dougherty, son of Mr. and Mrs. Charles Dougherty, who enlisted at the opera house patriotic meeting, has been accepted in the army, was at Jefferson Barracks and is now at Fort Snelling. In a series of three letters to his mother, he writes as follows:

Duluth, Minn.,
July 7, 1917.
Dear Mother and all—I am feeling fine. I was examined this morning and passed fine. I leave here this afternoon for St. Louis.

July 12.
Well Mother, I arrived at St. Louis all O. K. and passed everything fine. Don't worry about me. I am having a good time at Jefferson barracks. Picture shows every night for the boys and lots of band music. I have not seen any one I know here. There are about two hundred coming in every day and about the same number going out. Tell everybody hello for me. I don't think I will be here long.

Tell the boys to join the army for they need them.
Well I will close as it is time for retreat call. Will write again when I get stationed.

July 14.
I leave here for Ft. Snelling Monday. I will write often when I get there, if I stay there it will be near and I will tell you about my trip. I just got off thirty-six hours duty work. Well so long, from your son,
LAWRENCE.

Ft. Snelling, Minn.

July 19.
Dear Mother—I arrived in Fort Snelling Tuesday a. m. and will start away from here in a couple of days. We work every day quite hard. The Sergeant told me we would go to France in about three months. I don't know where they will send me yet. Don't write till you hear from me, then tell me all the news. As ever your son,
LAWRENCE DOUGHERTY

FOOD THE ONLY WEAPON

The Food Problem Will Have as Much or More to do With Winning the War With Germany

National authorities are unanimous in the belief that food is the one weapon which will win or lose the great war in which nearly every nation on earth is engaged. The Minnesota State Fair, to be held September 3 to 8, will feature the first food training camp to be conducted by the government in the United States.

At this big training camp, plans for which are now being perfected at Washington, the people of Minnesota and the northwest will be told the necessity of producing more food and the additional necessity of conserving that food. Experts will be sent out to instruct the people and during the week of the fair every effort will be made to interest the public at large in this most important work.

Dr. Charles R. Van Hise, president of the University of Wisconsin, recently made the statement that "Men, munitions, ships and food are the four things that will win the war for us. From the standpoint of our own country food perhaps is the greatest of the four."

Dr. Van Hise's statement is only a repetition of what President Wilson has said and every expert in the country has coincided with him. Doubtless the exhibits which are now being prepared by government experts at Washington to be shown at the various fairs where food training camps are to be held will be arranged with the idea in mind to teach the best and most economical methods of both raising and conserving foodstuffs.

Secretary Thomas Canfield of the Minnesota State Fair, opines that every department of the fair this year will be given added stimulation owing to the fact that the government is to be actually interested and government exhibits shown.

LAKEWOOD NEWS ITEMS

Miss Beatrice May Shakeshaft, of Topeka, Kansas, is at Lakewood.

Mrs. Helen Hough Moore, one of the faculty of the normal school of physical education, is visiting her brother of Lakewood.

H F Michael has been a guest at Lakewood for ten days.

Mrs. Frank S. Crane who occupies one of the cottages at C. M. Hough's resort gave a delightful picnic and fish fry to a number of guests on Tuesday.

DISTRIBUTION OF STATE AID

Claimed that Schools of Some Communities Aided More Than Others in Minnesota

CROW WING AND ITASCA CITED

Itasca County Gets \$9.95 Per Pupil While Crow Wing County Gets but \$3.11 for Each

The distribution of state aid to schools seems to be unfair to some counties, as stated by Governor Burnquist in a letter to the state high school board.

Many counties are discriminated against, as shown by a report of the public examiner. Crow Wing and Itasca counties were cited as an example of discrimination, each having a local tax rate of 15.3 mills.

To Itasca county the state pays \$9.95 per pupil, while Crow Wing county only gets \$3.11, which is one of the lowest rates distributed to any county in the state.

STATE TIMBER APPRAISERS

The following state timber appraisers have been appointed to estimate timber in the fire-run regions of Northern Minnesota for the October 30, 1917, sale of timber to be held at the state capitol by State Auditor J. A. O. Preus:

L. G. Thydean	Big Fork
James McAndrews	Baudette
John Nelson	Deer River
Clarence Yorks	Stillwater
R. N. Ash	Minneapolis
Thos. Clancy	Stillwater
William Josie	Minneapolis
L. H. Lehn	Fairbanks
R. P. Escwein	Deer River
P. McLaughlin	Benidji
Sam Dalgard	Kellher
James Perkins	Baudette
H. M. Johnson	Deer River

It is not expected that all of the fire-killed timber can be estimated in time for the October sale, and therefore estimators will be sent back into the field for a later state timber sale to be held shortly before Christmas.

July 20, 1917, St. Paul, Minn.
OSCAR ARNESON,
Supt. State Timber.

SALVATION ARMY CAPTAIN TO LEAVE

On Sunday night Capt. and Mrs. H. C. Belsham, who have had charge of Salvation Army activities in the Brainerd for the past six months, will have their farewell service, as they have received marching orders and will proceed on Tuesday to their new command at Ishpeming, Michigan.

Capt. and Mrs. Knudson, who are now stationed at Thief River Falls, will come and take charge of the work in Brainerd. Arrangements are being made for their welcome meeting on next Thursday night.

OPEN SEWER MENACE

City to Commence Campaign Against Householders Who are Violating Health Laws

Open sewers on private premises are a menace to health and the city is about to see that householders pay more attention to stopping such practice and have the same closed at once as an open sewer draws flies and the smell on hot days is offensive and the cause of sickness.

The sanitary policeman, B. J. Koehler, is making the rounds of the city and all premises in bad shape as regards open sewers are being noted and prosecutions will follow if conditions are not remedied.

Mr. Koehler, by the way, has collected 425 dog licenses, showing an unheard of number of dogs in the city.

BRAINERD'S ODDEST STORIES OF TODAY

Men who were the first to criticize the president for keeping us out of the war, should now not resent the fact that we are in war and that taxes must be paid.

Holes in street paving should be filled in. It makes a better street, prevents deplorable accidents and adds to the life of teams and cars. Brainerd must have a program of constant street repair as well as the prosecution of new paving.

Nearly 11,000,000 pieces of mail matter posted in this country last year were so blindly addressed that they were sent to the dead letter office.

PARALYSIS CLINIC SOON AT BRAINERD

Report of the Clinic Now Being Held in Duluth and to be at Brainerd Next Week

PARENTS TO BE INSTRUCTED

Cases at Brainerd and Vicinity to be Treated Here—Doctors Engage 10 Rooms at Hotel

The Duluth Herald gives a statement of the work of the paralysis clinic now being held there and which will be at Brainerd next week, the consultation rooms, etc., to be on the third floor of the Citizens State bank hall.

Doctors and others in the party have engaged ten rooms at the Ransford hotel.

The Duluth Herald story follows: The free poliomyelitis or infantile paralysis clinic, being conducted this week in a suite of rooms on the main floor of St. Mary's hospital, is an unqualified success. Its organizers and local health authorities declare.

The clinic was opened Tuesday morning and since that time more than fifty cases have been examined. The chief object of the clinic is to instruct parents in methods of preventing or correcting the deformity resulting from infantile paralysis in Mrs. C. W. Green, Miss Winnifred their children.

Tougas and Miss Antoinette White, experts from the children's hospital of Boston, Mass., together with Miss Venita Quackenbush, infantile paralysis nurse specialist of Boston, and Dr. W. P. Green of the state board of health are doing the actual work of examination.

Cases from the surrounding country are being examined free of charge here. It is pointed out that this is an excellent opportunity for parents to get the most expert advice for their children who have suffered from infantile paralysis. The clinic will be maintained until Saturday. It is expected to close Saturday noon, but if some cases hang over it will be held in the afternoon also.

From Duluth the clinic will move on to Brainerd, taking care of all the cases in that vicinity.

ROLL OF HONOR

Howard Mahlum, son of Anton Mahlum, has joined the forestry reserve, volunteer 10th Engineering Corps. Mr. Mahlum had a university education in forestry. One of his recent feats was cutting down the big poplars at the Kindred place.

Mack's Efforts Gaining Respect

BY H. C. HAMILTON,
(United Press Staff Correspondent.)

New York, July 20.—More and more the efforts of Connie Mack, silent leader of the Athletics, are gaining respect among the big leaguers. The prediction made by himself when he began to whittle off the stars with which he had won several world's championships, that he would be back in the race by 1917, has not been realized, but he has succeeded in making the name Philadelphia once more one to be feared in the American league.

Discussing Mack and his newly made team, Bill Donovan said that he would rather play almost any club in the league than send his men into a contest against the Mackmen. "They won't win any pennants this year," Donovan commented, "but they're going to fight mighty hard for every game they go into. From this time on they're going to improve. I'm a mighty mistaken student of this national pastime if the Athletics are not found kicking considerable dust around before the end of the 1918 campaign gets here."

Donovan figures—and so does every other baseball manager who has had a glimpse of him—that Ray Bates is one of the finest players the minor leagues have yielded in many a day. He also believes Witt the equal of any shortstop in the American league with the possible exception of Roger Peckinpaugh, his own short fielder. Second base is a problem, but McInnis is fully the equal, perhaps the superior of any man doing first base duty.

"There isn't a thing wrong with that outfield of Connie Mack's," Donovan ruefully remarked. "I only wish I had a pair of those birds working for me. I might have a chance to win a pennant before he makes the going so rough."

Where is the manager who would not like to have Bush, Myers and Noyes pitching for him; and where, or where can you find a big leaguer who wouldn't spend several thousand dollars for Wallie Schang.

The foundation has been built for another fine baseball team in Philadelphia. Managers and baseball men everywhere believe it is due.

WHERE TO WORSHIP

First Methodist Church
Rev. Walter J. Smith of Brainerd, will preach in the morning.

Peoples Congregational Church
Rev. William Lloyd Crist, pastor. Sabbath school 10 A. M. Morning service 11 A. M., subject, "The Passion for Souls Illustrated." Evening service 8 o'clock, subject, "Guests at the Lord's Table."

St. Paul's Episcopal Church
Seventh Sunday after Trinity. 8 A. M. Holy Communion, 9:30 Sunday school, 10:30 morning prayer and sermon, subject, "Saving Others the Soul Work of Life." All are welcome to the services.

Bethlehem Lutheran Church
(South Seventh Street)
Services Sunday morning at 10:45 o'clock. Miss Amy Zakariassen and the Euterpean quartet will furnish musical numbers. A mission meeting will be held at the Zakariassen farm Sunday afternoon at 3 o'clock, this taking the place of evening service.

First Baptist Church
Morning service at eleven o'clock. The pastor will speak on the subject "Doing One's Bit." Evening service will be held at 8 o'clock. The sermon subject will be "The Kingdom Within." Sunday school at 9:45 A. M. B. Y. P. U. at 7 P. M. Strangers and visitors are cordially invited to all services of the church. R. E. Cody, pastor.

Presbyterian Church
Morning worship and praise at 10:30 o'clock. The theme of the sermon will be, "Types for Our Instruction." In the evening at 7:45 the sermon subject will be "The Gospel Story." The Sunday school meets at noon. Primary department at 9:30 and the Christian Endeavor at 6:45. The subject is "Applying the Golden Rule to Life." Matthew 7:7-12. A cordial invitation is extended to these services. W. J. Lowrie, pastor.

Zion Evangelical Lutheran Church
(P. G. Miller, Pastor)
Next Sunday the congregation will observe their annual mission festival, visiting pastors conducting the services. In the morning service which begins at 10:30 o'clock, Rev. A. Agather of Sauk Rapids will preach the sermon. Rev. W. Hitzemann of Hillsboro, N. D., will conduct the afternoon services. In the evening Rev. H. Schultz of Sanborn, Minn., will deliver a sermon in English. The offerings will go to home missions.

Christian Science Society
Camels hall, Iron Exchange building. Sunday school at 10 A. M.; Sunday service at 11 A. M.; Wednesday evening at 8 P. M. To these services all are welcome. Subject for Sunday, "Life." Golden Text Deu. 30:16-20. A Christian Science reading room is maintained in the same building, room 218, second floor, open daily except Sunday and holidays from 3 to 5 P. M. Christian Science literature is furnished for free distribution and also for sale.

Evangelical Church
(Cor. Forsyth and Fourth, N. E.)
Sunday school 9:45 A. M. Lesson 2 Kings 19, "Sennacherib's Invasion of Judah." Service 11 A. M. Sermon topic, "The Freedom of Faith." Brush up on this vital subject by reading a few pages in the Epistle to the Galatians, the 9th division in the New Testament. 7 P. M. Young Peoples' meeting, topic, "Applying the Golden Rule to Life." 7:45 evening worship and preaching. Dykeman S. S. 2 P. M. Service 3 P. M. Come and help make the day a blessing. G. Herbold, pastor.

To FEED NEUTRAL NATIONS
Ship Permits to Replace British Letter System.

Washington, July 21.—Plans for which the United States will relieve Great Britain of the task of rationing the European neutral countries have about reached completion. In a short time the British system of issuing letters of assurance for American exports to the neutrals will be superseded by the export license arrangement. The administration, it was said, has determined on a strict rationing policy and through its agents abroad will keep a close check on trade between the neutrals and the central powers.

The cross of St. George has been the British emblem since the fourteenth century. Before that time the crusaders wore it on their armor, and among them it came to be known as the jack.

High cheek bones are said to indicate great force of character in some directions.

The greatest bands
in the world
parade before you
on the VICTROLA

YOU can sit back in your easy chair and enjoy Sousa's Band, Pryor's Band, Vessella's Band, Conway's Band, U. S. Marine Band, Banda de Alabarderos of Madrid, Black Diamond Band of London, Band of H. M. Coldstream Guards, Garde Republicaine Band of France, Kryl's Bohemian Band, Police Band of Mexico City—the greatest bands in the world.

What's more, the Victrola brings you an exhaustless variety of equally high class entertainment in every field of music.

Victrolas, \$15 to \$400. We'll put one in your home on the easiest of terms.

"MICHAEL'S"

A POPULAR CIRCUS

Al. G. Barnes Show has Two Trains of Wild Animals, Four Baby Elephants, Baby Tiger, Etc

For years the Al. G. Barnes four ring wild animal circus has been the most popular tented exhibition in the country. This big jungle town will favor Brainerd with a one day's visit Tuesday, July 31.

This organization is now larger than ever before, and among the brand new attractions to be seen nowhere else—is a donkey, educated to sing, a scream? It certainly is. The show's program is the most elaborate, thrilling and sensational two hours' exhibition of wild and domestic animal education ever exhibited. Two steel arenas, and two sawdust circles, 1000 animal actors, electric fans, electric lights, one hundred and fifty animal educators, five hundred and six attendants, thirty piece military band. A program of 65 features acts full of zip and dash. Surely some circus! One that will easily outclass in interest and excitement anything on record in canvas show history.

A two mile long, glittering, substantial, novel, costly and high class street parade at 10:30 a. m. show day will at once give the best evidence of the originality and merit of this unusual show.

Elephants drawing band wagons, zebras hauling big golden cages of lions and tigers; even the racing and driving ostriches have their carts; camels attached to the funny clown wagons, sacred oxen, pretty band girls and animal educators in open dens with their jungle friends. This big street parade is a free donation to rich and poor alike and is really worth your looking it over even if you do not attend the exhibition. The management extends you a hearty welcome.

Following the magnificent and costly down town display there will be a free high dive at 1 p. m., just outside the entrance to the main tent. The all big feature act program will open with a most wonderful animal pageant, followed by a most bewildering array of rare educated animal performances of exceptionally educational value, clean, clever and wholesome.

Comic interludes to relieve the tension of the thrilling and daring wild beast acts, animals of rare specie in rare circus acrobatic, juggling, dancing, high dive, leaping, horse back.

IDEAL WEATHER FOR A HAMMOCK

We still have a few Hammocks left and not wishing to carry them over we are offering them at a bargain

Don't fail to see them

Slipp-Gruenhagen Co.

The Store of Dependable Hardware

riding, wrestling, boxing, racing and equestrian feats.

Doors open at 1 p. m. Four of the animal tents under special lecturer at the same hour. Performances at 2 and 8 p. m.

GERMANY TRYING TO WEAR OUT ALLIES

London, July 21.—Germany is desperately trying to wear out France's military strength before the latter's troops get into battle line.

Such is the war office explanation for the unrelenting Hindenburg offensives on the Champagne and Aisne fronts.

Experts believe Germany is now beginning to realize that fresh armies from the United States may entirely turn the tide unless present armies are much further exhausted than at present.

France, in the opinion of Germany, is the nation most nearly worn down. Front dispatches revealed continuance of the heavy fighting on the French front.

Home Guards to Be Armed.

Helena, Mont., July 21.—Governor Sam V. Stewart received a letter from William Crozier, brigadier general of ordinance at Washington, stating that for the present home guards will be armed only when guarding United States property. Equipment is short. Later, when the supply is increased, home guards on other duty may be armed.

Kerensky Assassin's Target.

Petrograd, July 21.—An attempt to assassinate War Minister Kerensky was made at the town of Polatsk. A shot fired at the minister missed him.

Ideals in Statuary.

One scarcely realizes until he comes into personal contact with South American institutions and people the difference of traditional ideals with which North and South America were founded. While through our parks and commons in New England we find statues of the early pilgrim father with a staff in his hand and the Bible under his arm, here in these republics we find in the parks the mailed warrior with lance and sword, the emblem of the Spanish adventurer who first came to drive out the Indian from his possessions, to loot his gold and to place upon the country and its inheritance the stamp of his ruthless ambitions.—Christian Herald.

Exercises.

"When I was at school," remarked the reminiscence citizen, "they made me write over and over in my copybook 'Honesty is the best policy.'"

"Yes," replied Senator Sorghum.

"But what made the impression on my mind was the later and more practical instruction. 'Now is the time for all good men to come to the aid of their party.'"

—Washington Star.

SENATE CLOTURE HAS DRAWBACKS

Shuts Off Debate and Prevents Effective Legislation.

BARS AMENDMENTS TO BILL

Under These Conditions Almost Anything Might Be Voted Into a Pending Measure—Discussion of Revenue Bill in Senate Likely to Be Long. Employment at the Capital.

By ARTHUR W. DUNN.

Washington, July 21.—[Special.]—Cloture is something of a scarecrow, but it has not been demonstrated that it can be made practicable in closing debate in the United States senate and at the same time secure effective legislation. The threat of cloture on the food bill may have hastened the unanimous consent to vote upon it, but if the cloture had been invoked it would have resulted in a rather crude bill, for it provides that after having been once adopted no amendment can be offered to a bill which has not been read. Of course every senator with an amendment has it read, and it awaits a vote after each senator has had an opportunity to talk an hour. Almost anything might be voted into a bill under those conditions. It is supposed that the senate is the body that deliberates and perfects legislation, but if they get to working under cloture there will be a great deal of legislation to be perfected in conference.

Men Can Be Heard.

Never before has there been any better opportunity for men to be heard on legislation affecting their interests than during this session. This has been particularly true in regard to the revenue bill. While hearings were not granted by the house committee and the hearings in the senate committee were rushed, there have been ample opportunities for people interested to see individual members of both committees and also to see all the senators and representatives who are likely to become interested in the subjects.

On this account it is expected that the debate on the revenue bill in the senate will be somewhat prolonged, as there are many divergent views to be presented.

Employment in Washington.

Owing to the demand for efficient clerical help in the many departments in Washington clerks have been drawn from private employment to a very large extent. Any well trained stenographer or efficient clerk in almost any line has had no trouble in getting employment in the government service.

Another feature of government employment is that the newly created bureaus, paying lump sum salaries, and for the most part good salaries, have drawn on the civil service for the best clerks and disarranged the regular departments and bureaus to a considerable extent.

Loyal American Citizens.

The two words, "German-American," are not heard very often in congress these days, but we do hear a remark about men of German birth and parentage. "There is no disposition," remarked Congressman Dewalt of Pennsylvania, "among the ten millions of persons of German extraction to do otherwise than stand loyally by the country. They bought the liberty bonds, and they have subscribed to the Red Cross funds, doing as native American citizens might be expected to do."

"Pitiless Publicity."

The day the senate reversed itself on the Cummins prohibition amendment to the food control bill Senator Sherman said during the course of a short speech, "I am in hopes that at some time the light of pitiless publicity will be applied to what occurred between the time of adjournment last night and the roll calls today which caused the senate to reverse itself on this question."

Frelinghuysen Made Good.

Making a set speech on an important subject, Senator Frelinghuysen of New Jersey gave a good impression. He was listened to by many senators, a compliment that is not paid to new senators often. As a man who participated in the Spanish war Frelinghuysen was able to give the senate first hand facts about that war, some of them being rather unpalatable. He asserted that congress was responsible for the gross negligence which resulted in so many troubles in 1898 by not having provided a trained army and relying upon troops who did not know how to care for themselves and whose officers did not know how to care for them.

A Long Coast Line.

Congressman Osborne of California was urging the house to give attention to the needs of the Pacific coast. "It is difficult," he said, "for persons who have never crossed the Rocky mountains to realize that the Pacific coast, with three states, has nearly as an extended ocean front as that of the Atlantic coast and with Alaska a much greater length of sea water front. It is also difficult for people to realize that the greatest danger to the United States of foreign invasion is along this Pacific coast line."

The California congressman, like many of his people, believes that there is a Japanese peril.

JOHN K. TENER.

National League Head Becomes Hoover Aid.

© 1917, by American Press Association.

President Tener's enlistment as a volunteer on Mr. Hoover's staff does not mean that he will quit baseball. "I have no intention to resign," said he when asked about it. "I was in Washington for a few days and became interested in the food conservation matter, which will need careful handling when it becomes a law. I have promised to devote about two weeks to the matter and will go to Washington Monday for that purpose. But I do not intend to give up baseball."

MUCH POULTRY IN STORAGE

Fifty-one Million Pounds Held in This Country.

Chicago, July 21.—Stocks of more than 51,000,000 pounds of poultry, some of it said to be two years old, is held in cold storage houses of the country, say commission dealers.

As a result speculators are in a tight fix. A big crop, high prices and a disappointing volume of exports is said to be forcing speculators to sacrifice their stock at minimum loss.

HARVEST MENACED BY LACK OF LABOR

Chance For Civilians to "Do Their Bit" on the Farms.

BOYS LACK NEEDED BRAUN

Suggestion Made By a Senator That Idlers in Large Cities Be Forced to Work—Laws of Nation Prevent Commandeering of Labor—Reed of Missouri Knocks Calamity Howlers.

By ARTHUR W. DUNN.

Washington, July 20.—[Special.]—Those who want to "do their bit" and are unable to perform the duty of soldiers may have an opportunity to go on the farms and help harvest the crops. It would be impossible at this time, with the many other measures pending, to pass a conscription law for farm laborers unless there was substantial unanimity in favor of such a measure, and from what has been seen in congress it may be asserted that there is no substantial unanimity in favor of anything.

Of course there have been many warnings about the scarcity of farm help. Attempts have been made to meet the situation by enlisting the boy scouts, but that was not such a success as to make it feasible. More braun and strength will be required than these boys have to gather and prepare the crops for market.

A Senator's Idea.

Senator Thomas of Colorado has an idea that there are enough idle men in the big cities to take care of the crops if they could be induced to go to the farms. "I have seen hundreds of loafers in the parks in different cities," he said. "They ought to be taken by the nape of the neck and pitched on trains and sent to the farms, where they should be made to work."

But he seems to forget that involuntary labor, unless by criminals, is not lawful in this country. Men cannot be made to work except by sentence of a court for some offense. Local vagrancy laws would not cover the situation.

Considered It Cheap.

Senator Smoot, the author and proposer of the amendment to the food bill which caused so much controversy—that which provided that the government should take over and pay for the distilled liquor in bond—was replying to those who asserted that it would cost the government anywhere from \$500,000,000 to \$700,000,000 by asserting that it would not cost anywhere near the large estimates. "I am frank to say," said the Utah senator, "that it will cost a great deal, but even if it cost \$150,000,000 it would be cheap for the government of the United States if it should do away with the booting bill of the country, which amounts to \$2,500,000,000."

Hits Calamity Howlers.

Every time he gets an opportunity Senator Reed of Missouri takes a shot at the "calamity howlers," who, he says, have been going up and down the country shouting, "Woe, woe, woe!" and to a great extent have scared the people. Reed wrote mayors of 200 cities asking what were the conditions as to business, and replies from all but two or three said it was better than two years ago. Reed says that, in spite of the calamity howlers, business is improving.

Senator Calder of New York interrupted him to say that business conditions in New York were better, but the cost of living was 25 per cent higher than two years ago.

Authority on Transportation.

Whenever the senate is considering a measure which deals with transportation the members always listen with a great deal of attention to anything that Senator Kellogg of Minnesota has to say on the subject. He spent so much time investigating trust and transportation problems that he is an authority on those subjects.

"Let 'Em Go to the Farms."

One of the arguments against stopping the manufacture of liquors has been that hundreds of thousands of men will be thrown out of employment. "But they need not be out of employment," said a man from a farming district. "Let 'em go to the farms. There is going to be a great demand for farm hands from now until the cold weather sets in."

Large Fertile Unproductive Area.

During a discussion of food Senator Kellogg of Minnesota called attention to the millions and millions of acres of lands which were unproductive because the government had taken no steps to restore them. He spoke especially of the lands along the Red lake and Red River of the North in his state. "We must bring these vast areas into use," said Kellogg, "if we are to do anything toward conserving our great natural resources."

"Handmade Legislation."

Speaking of one of the food bills, Congressman Miller of Minnesota referred to it, saying, "This is one of those handmade pieces of legislation."

"Handed down to us," interjected Hamilton of Michigan. "Yes," replied Miller, "handed down to us from its source. I do not blame the man for not wanting his name attached to the bill. It will not be bound to his credit."

DEATH TO THE MOSQUITO.

Attack the Pest by Warring Upon Its Breeding Places.

By doing away with breeding places, such as tin cans, broken crockery and various receptacles that hold water, by the drainage of bodies of water likely to contain immature mosquitoes, by application of oil to bodies of water that cannot be drained or the introduction of fish into pools that cannot either be drained or oiled millions of mosquitoes may be destroyed.

Water is necessary for the life of the mosquito. The eggs which are laid on the surface of the water by the adult mosquito hatch in from twenty-four hours to several days, depending on the temperature. The larvae issue from the lower ends of the eggs and wriggle about in the water.

The larvae of the house mosquito rest with the tips of the abdomen at the surface of the water and the heads hanging downward. The larvae of the malaria fever mosquito lie parallel with the surface of the water to obtain air. In from one week to ten days they change to another form, the pupae, which have two respiratory tubes on the thorax. These pupae float in the water and transform to adults in from five to six days. The adults winter in the dormant condition.

The germ causing malaria fever has been carefully and repeatedly traced through its life history, and it has with certainty been found to pass a part of its existence in man and part in the body of the mosquito. By the bite of the mosquito the malarial fever organism is transmitted to man. No practical methods have been devised to destroy adult mosquitoes. All successful methods so far have been to check their numbers by either doing away with hiding places or by destroying the young mosquitoes.

Kerosene oil applied to the water surface at the rate of one-half teacupful to one barrel of water or one ounce of kerosene to fifteen square feet of water is sufficient to destroy any young mosquitoes that might be present in the water. An application of the kerosene should be made every fifteen days.

Attentive Listeners.

"Nobody listens to a word she says." "Is she so unreliable?" "Oh, no, but when she goes out her hostess generally asks her to sing for the company."—San Francisco Chronicle.

Died of Premature Old Age!

(BY V. M. PIERCE, M. D.)

How many times we hear of comparatively young persons passing away when they should have lived to be 70 or 80 years of age. This fatal work is usually attributed to the kidneys, as, when the kidneys degenerate, it causes auto-intoxication. The more injurious the poisons passing thru the kidneys, the quicker will these noble organs be degenerated, and the sooner they decay.

It is thus the wisest policy, to prevent premature old age and promote long life, to lighten the work of the kidneys. This can be done by drinking plenty of pure water all day long, and occasionally taking a little Anurie before meals. This can be obtained at almost any drug store. Anurie will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant arising from bed at night.

WELL-KNOWN MINNESOTA WOMAN SPEAKS.

St. Paul, Minn.—"I had been troubled with disordered kidneys for about two years. My back ached terribly, I side pained, and I had frequent stools. I let it run on until just recently, when I read of Dr. Pierce's Anurie. I have taken the Anurie but a short time, but am now feeling fine. My side and back have stopped paining, the stools are not so frequent, and I sleep well at night now, which I couldn't do before. I certainly advise anyone suffering from kidney disorders to use Anurie."—Mrs. L. G. FILLAN, 164 E. Congress Street.

feeling fine. My side and back have stopped paining, the stools are not so frequent, and I sleep well at night now, which I couldn't do before. I certainly advise anyone suffering from kidney disorders to use Anurie."—Mrs. L. G. FILLAN, 164 E. Congress Street.
